EXPERIENCE

Front-end developer with a proven ability to work on both long term and short term projects and collaborate with other stakeholders.

With a passion for both personal growth and software development, I keep myself updated with new technologies and trends that reduce problem solving time and yield good results.

Ready to apply my talented coding skills to a team to develop quality products.

PROJECTS

Blog site— www.sincerelykui.com

- Built a full-stack lifestyle blog
- Used next js framework with sanity.io as a headless CMS

Android app—

<https://play.google.com/store/apps/details?id=com.KLTC>

- Built an android application using java/kotlin
- The app is used to view local tv channels in kenya
- The app only works on the android platform.
